Durable Gate Systems

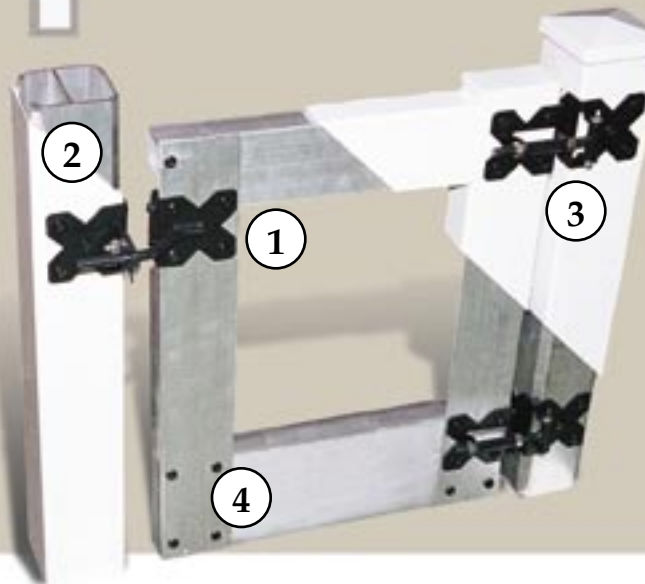

Removable Center Post
is Recommended on Double Gates

Center Post
Cross-Section

- Factory Designed and Assembled
- Long-term solutions to Traditional Gate Problems
- Structural Integrity is Built into this Gate System

- 1 FEATURE** - Gate perimeter fully reinforced with corrosion resistant aluminum channel.
BENEFIT - Gate stays square.
- 2 FEATURE** - Heavy duty aluminum gate post stiffeners (recommended option).
BENEFIT - Posts remain rigid for accurate gate closure.
- 3 FEATURE** - Stainless steel adjustable hinge hardware with stainless steel latch.
BENEFIT - Hinges are corrosion resistant with easy adjustment for accurate alignment.
- 4 FEATURE** - Stainless steel fastener screws used on gate assembly, hinge and latch hardware.
BENEFIT - Corrosion resistant screws fastened through vinyl and aluminum for positive long-term strength.

Available:

- Cardinal Railing
- Eagle Railing
- Falcon Railing
- Raven Railing

Material Specifications:

Rigid P.V.C. exterior profiles, used for Polyvinyl Fence systems, contain impact modifiers for cold weather and Titanium Dioxide for ultraviolet light resistance. These profiles meet or exceed the specification F-964 established by ASTM.
